The Software is developed for business Users only. It may not be used by private customers.
- 1.2 The Software consists of software components from Bosch Sensortec GmbH (subsequently "BST"). User undertakes to comply with the provisions of these Terms and Conditions.
- 1.3 Unless otherwise agreed with the User in individual cases the User shall exclusively receive the Software in binary form in the compressed archive file format "zip" for extraction and self-installation on his system. The User may download the Software via the BST Homepage – the online portal for the customers.

- 2.2 BST further grants to User a non-exclusive, non-transferable, non-sublicensable right of use in the Software solely for developing reference designs (demonstrator for testing the functionality of hardware and software components during the development phase) which contain BST 3-axis gyroscope and accelerometer sensor devices provided that such use is in compliance with the further provisions of these Terms and Conditions including operating instructions or other documentation made available by BST.
- 2.3 The Software has been developed for certain BST 3-axis gyroscope and accelerometer sensor devices and may not be used in connection with other BST sensor devices or devices from other manufacturers.

operating instructions or other documentation made available by BST and to reimburse BST for all costs in connection with such claims.

- 2.8 This agreement shall have a term of 10 years.
- 2.9 The right of termination of these license Terms and Conditions without notice for cause shall be reserved.
